

# Questions

## Living Organisms

### (parts of plant)

#### **I- Match:-**

- 1- The plant consists of ..... - absorbs (takes) water from soil.
- 2- The root ..... - grows above the soil.
- 3- Shoot system ..... - makes plant's food.
- 4- The leaf ..... - root and shoot systems.

#### **Complete the following sentences using words between practice:-** (under - seeds - the soil - carries)

- 1- Fruits produce .....
- 2- Roots grow .....the soil.
- 3- The stem .....the plant parts.
- 4- The root absorbs water from .....

#### **Choose the correct answer:-**

- 1- Root system consists of..... (stem - fruit - leaves - root)
- 2- Shoot system grows ..... the soil. (above - under - on).
- 3- Fruits produce ..... (flowers - food - seeds).
- 4- The leaves make ..... (plant's food - juice - water.).

Label the following figure:-

(leaf - flower - stem - root - fruit)

Put (√) or (x):-

- 1- The shoot system consists of stem ,fruits, flowers and leaves. (    )
- 2- The stem makes plant's food. (    )
- 3- The flower produces seeds. (    )
- 4- The roots absorb water from the soil. (    )
- 5- The root system grows under the soil. (    )

# Photosynthesis

Complete the following sentences using words between practice:-

(carbon dioxide - water - leaves - sun light)

- 1- Root takes .....from the soil.
- 2- Plant needs .....gas to make its food.
- 3- Green .....make plant's food.
- 4- .....gives light energy to the plant.

Choose the correct answer:-

- 1- Plant makes photosynthesis to produce ..... (nitrogen - oxygen - carbon dioxide) .
- 2- Plant needs .....to make its own food. (sunlight - milk - juice)
- 3- ..... make plant's food . (Root - Flower - Green parts)
- 4- Plant needs ..... gas to make its food. (oxygen - nitrogen - carbon dioxide)

# Science

Complete the figure :

(sunlight - carbon dioxide - water - oxygen)

Match:

- |                   |  |
|-------------------|--|
| 1- Plant's food.  | - oxygen gas.  |
| 2- Plants need    | - make plant's food.                                   |
| 3- Plants produce | - sunlight, water, carbon dioxide gas,<br>green parts) |
| 4- Green parts    | - starch or sugar.                                     |

Complete :-

(oxygen - carbon dioxide - sunlight - starch - sugar - water green)

**To make**

.....or..... + .....

Put (✓) or (x):-

1- Plants need sun light only to make its own food. ( )

2- Plants take water from the soil. ( )

3- Green parts make plants food. ( )

4- Plant produces nitrogen gas. ( )

# The edible parts

Complete the following sentences using words between practice:-

(turnip - mandarin - stems - flowers )

- 1- We eat root of .....
- 2- We eat the .....of spring onion.
- 3- We eat the fruit of .....
- 4-We eat the .....of broccoli.

Choose the correct answer:-

- 1- We eat the ..... of potatoes. (leaves - stem - fruits).
- 2- We eat the fruits of ..... (banana - carrots - eggplants)
- 3- We eat the ..... of Maize. (seeds - stem - fruits).
- 4- We eat the leaves of ..... (sugarcane - pear - lettuce)
- 5- He eat the ..... of cauliflower. (flowers - stems - roots)

# Science

Circle the right picture:-

1- We eat the roots of

2- We eat the fruits of

3- We eat the leaves of

4- We eat the stem of

Match :

1- We eat the fruits of

2- We eat the leaves of

3- We eat the flowers of

4- We eat the stems of

5- We eat the roots of

6- We eat the seeds of

# Science

---

Put (√) or (x):-

- 1- We eat the seeds of Mandarin. ( )
- 2- We eat the roots of sweet potatoes. ( )
- 3- We eat the leaves of cabbage. ( )
- 4- We eat the fruits of Maize. ( )

# Healthy Food

Put (√) or (x):-

- 1- Humans need unhealthy food to grow. ( )
- 2- Healthy food is the food which is clean and fresh. ( )
- 3- Healthy food helps us to grow. ( )
- 4- Healthy food doesn't protect us from diseases. ( )
- 5- Grapes and chips are healthy food. ( )

Choose:

- 1- .....are healthy food. (Banana - Candy - Ice-cream)
- 2- ..... is unhealthy food. (Eggs - carrots - Chocolate)
- 3- Lettuce and grapes are ..... food. (healthy - unhealthy )
- 4- Beef burger is ..... food. (healthy - unhealthy)
- 5- Humans need ..... food to grow . (healthy - unhealthy)

## Food Group

### 1-Put (✓) or (x):-

- 1- Food helps us to sleep. ( )
- 2- Carrots, grapes and mangoes are from protection group. ( )
- 3- Honey and cake are from energy group. ( )
- 4- Body Building foods contain proteins. ( )
- 5- Lettuce is from body building group. ( )
- 6- Egg and potatoes come from animal. ( )

### 2-Choose the correct answer:-

- 1- Energy group contains.....  
a) Carbohydrates.    b) Proteins    c) Vitamins
- 2- Fish, egg, meat and beans are examples of.....  
a) Energy group    b) Body Building    c) protection group
- 3- Food protects us from.....  
a) air    b) cold    c) diseases

# Science

4- Protection group likes.....

- a) Vegetables and fruits      b) protein      c) Carbohydrates

5- Body building food contains.....

- a) Vitamines      b) carbohydrates      c) proteines

6- Food comes from.....

- a) Animal only      b) Animal and plant      c) plant only

7) We should eat.....food.

- a) Healthy      b) un healthy

### 3) Match: -

1- Protection group

2- Body Building food

3- Carbohydrates group

4- Fats and oil

# Science

---

## 4) Complete from the following words:-

(Rice - carrot - grow - disease - meat - energy)

- 1- .....is carbohydrate and it gives us.....
- 2- .....is protein and helps us to.....
- 3- .....is vitamin and protects us from.....

## Unit (5) Lesson 3 Balanced Food

1- Complete the table for the balanced food:-

Breakfast	Lunch	Dinner

1- Put (√) or (x) :

- 1- Dinner should have meat, rice, honey and butter. ( )
- 2- A balanced meal contains proteins only. ( )
- 3- Our lunch must have rice, meat, vegetables and fruits. ( )
- 4- We have our breakfast including milk, bread, fruits and honey. ( )
- 5- We must have balanced meals. ( )

# Model Exam (I)

## 1-Choose the correct answer:-

1-.....contain vitamin and mineral.

- Carrot and banana      - fish and meat      - cake and rice

2- We eat.....of turnip.

- Leaves      - stem      - Roots

3- We should eat.....food.

- Healthy      - unhealthy      - Fat only

4- you should eat.....meals a day.

- one      - three      - two

5- Fizzy drink is.....food.

- a healthy      - an un healthy      - proteins

## 2-Put (√) or (x) :

1- We eat the stem of potatoes.      (    )

2- Green leaves make plant's food.      (    )

3- Plants produce carbon dioxide gas in photo  
synthesis Process.      (    )

# Science

4- Root system consists of stem. ( )

5- The stem carries the plant parts. ( )

### 3) Match:-

- Carbohydrates

- Balanced diet

-Root

- give us energy

- Plant's food

- Banana

- You should eat

- starch or sugar

- We eat the fruits of

- absorb water from the soil

### 3-Complete from the following words:-

(Egg - Ice cream - Roots - oxygen - lunch)

1- We eat fish, rice green salad and juice  
in.....meal.

2- .....is healthy but.....is un healthy.

3- Plants make photo synthesis process and  
produce.....gas.

4- We eat.....of carrot.

# Answer

## Living Organisms

### (parts of plant)

#### I- Match:-

- 1- The plant consists of → - absorbs (takes) water from soil.  
2- The root → - grows above the soil.  
3- Shoot system → - makes plant's food.  
4- The leaf → - root and shoot systems.

#### Complete the following sentences using words between practice:- (under - seeds - the soil - carries)

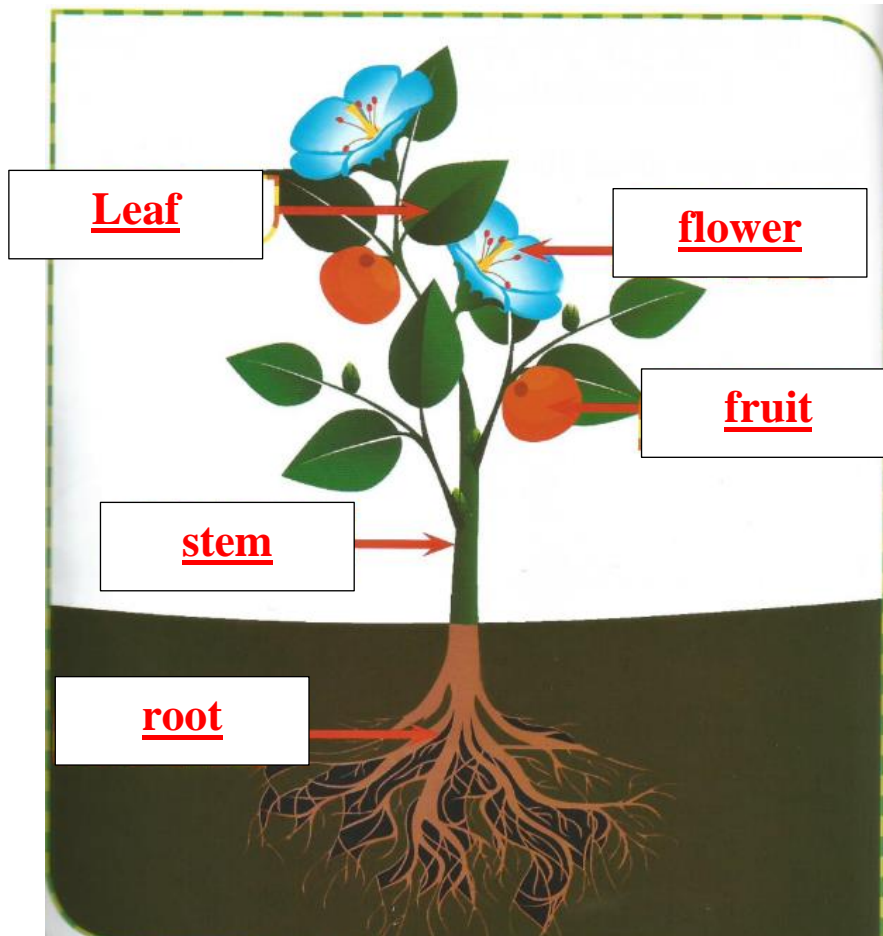

- 1- Fruits produce seeds.  
2- Roots grow under the soil.  
3- The stem carries the plant parts.  
4- The root absorbs water from the soil.

#### Choose the correct answer:-

- 1- Root system consists of..... (stem - fruit - leaves - root)  
2- Shoot system grows ..... the soil. (above - under - on).  
3- Fruits produce ..... (flowers - food - seeds).  
4- The leaves make ..... (plant's food - juice - water.).

Label the following figure:-

(leaf - flower - stem - root - fruit)

Put (✓) or (x):-

- 1- The shoot system consists of stem ,fruits, flowers and leaves. (✓)
- 2- The stem makes plant's food. (x)
- 3- The flower produces seeds. (x)
- 4- The roots absorb water from the soil. (✓)
- 5- The root system grows under the soil. (✓)

# Photosynthesis

Complete the following sentences using words between practice:-

(carbon dioxide - water - leaves - sun light)

- 1- Root takes water from the soil.
- 2- Plant needs carbon dioxide gas to make its food.
- 3- Green leaves make plant's food.
- 4- Sun light gives light energy to the plant.

Choose the correct answer:-

- 1- Plant makes photosynthesis to produce ..... (nitrogen - oxygen - carbon dioxide) .
- 2- Plant needs .....to make its own food. (sunlight - milk - juice)
- 3- ..... make plant's food . (Root - Flower - Green parts)
- 4- Plant needs ..... gas to make its food. (oxygen - nitrogen - carbon dioxide)

Complete the following sentences using words between practice:-  
(sunlight - carbon dioxide - water - oxygen)

Match:

- |                   |  |
|-------------------|--|
| 1- Plant's food.  | - oxygen gas.  |
| 2- Plants need    | - make plant's food.                                   |
| 3- Plants produce | - sunlight, water, carbon dioxide gas,<br>green parts) |
| 4- Green parts    | - starch or sugar.                                     |

Complete:-

(oxygen - carbon dioxide - sunlight - starch - sugar - water green)

Carbon dioxide

green parts of plant

Sunlight

Water

To make

Starch or sugar + oxygen gas.

Put (✓) or (x):-

- 1- Plants need sun light only to make its own food. (x)
- 2- Plants take water from the soil. (✓)
- 3- Green parts make plants food. (✓)
- 4- Plant produces nitrogen gas. (x)

## The edible parts

Complete the following sentences using words between practice:-

(turnip - mandarin - stems - flowers )

- 1- We eat root of turnip.
- 2- We eat the stems of spring onion.
- 3- We eat the fruit of mandarin.
- 4- We eat the flowers of broccoli.

Choose the correct answer:-

- 1- We eat the ..... of potatoes. (leaves - stem - fruits).
- 2- We eat the fruits of ..... (banana - carrots - eggplants)
- 3- We eat the ..... of Maize. (seeds - stem - fruits).
- 4- We eat the leaves of ..... (sugarcane - pear - lettuce)
- 5- He eat the ..... of cauliflower. (flowers - stems - roots)

# Science

Circle the right picture:-

1- We eat the roots of

2- We eat the fruits of

3- We eat the leaves of

4- We eat the stem of

Match :

1- We eat the fruits of

2- We eat the leaves of

3- We eat the flowers of

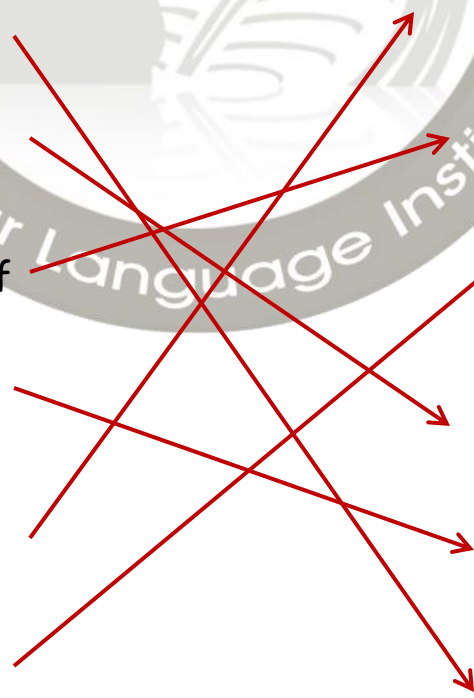

4- We eat the stems of

5- We eat the roots of

6- We eat the seeds of

# Science

---

Put (√) or (x):-

- 1- We eat the seeds of Mandarin. (x)
- 2- We eat the roots of sweet potatoes. (√)
- 3- We eat the leaves of cabbage. (√)
- 4- We eat the fruits of Maize. (x)

# Healthy Food

Put (✓) or (x):-

- 1- Humans need unhealthy food to grow. (x)
- 2- Healthy food is the food which is clean and fresh. (✓)
- 3- Healthy food helps us to grow. (✓)
- 4- Healthy food doesn't protect us from diseases. (x)
- 5- Grapes and chips are healthy food. (x)

Choose

- 1- .....are healthy food. (Banana - Candy - Ice-cream)
- 2- ..... is unhealthy food. (Eggs - carrots - Chocolate)
- 3- Lettuce and grapes are ..... food. (healthy - unhealthy )
- 4- Beef burger is ..... food. (healthy - unhealthy)
- 5- Humans need ..... food to grow . (healthy - unhealthy)

## Food Group

### 1-Put (✓) or (x):-

- 1- Food helps us to sleep. (x)
- 2- Carrots, grapes and mangoes are from protection group. (✓)
- 3- Honey and cake are from energy group. (✓)
- 4- Body Building foods contain proteins. (✓)
- 5- Lettuce is from body building group. (x)
- 6- Egg and potatoes come from animal. (x)

### 2-Choose the correct answer:-

1- Energy group contains.....

- a) Carbohydrates.      b) Proteins      c) Vitamins

2- Fish, egg, meat and beans are examples of.....

- a) Energy group      b) Body Building      c) protection group

3- Food protects us from.....

- a) air      b) cold      c) diseases

# Science

4- Protection group likes.....

- a) Vegetables and fruits      b) protein      c) Carbohydrates

5- Body building food contains.....

- a) Vitamines      b) carbohydrates      c) proteines

6- Food comes from.....

- a) Animal only      b) Animal and plant      c) plant only

7) We should eat.....food.

- a) Healthy      b) un healthy

### 3) Match: -

1- Protection group

2- Body Building food

3- Carbohydrates group

4- Fats and oil

## 4) Complete from the following words:-

(Rice - carrot - grow - disease - meat - energy)

- 1- **Rice** is carbohydrate and it gives us **energy**
- 2- **Meat** is protein and helps us to **grow**
- 3- **Carrot** is vitamin and protects us from **disease**

## Unit (5) Lesson 3 Balanced Food

1- Complete the table for the balanced food:-

Breakfast	Lunch	Dinner
<u>Milk</u>	<u>Rice</u>	<u>Egg</u>
<u>Bread</u>	<u>Meat</u>	<u>Cheese</u>
<u>Jam</u>	<u>Chicken</u>	<u>Fruits</u>
<u>Honey</u>	<u>Vegetables</u>	<u>Jam</u>
<u>Beans</u>	<u>Fruits</u>	<u>bread</u>

1- Put (√) or (x) :

- 1- Dinner should have meat, rice, honey and butter. (x)
- 2- A balanced meal contains proteins only. (x)
- 3- Our lunch must have rice, meat, vegetables and fruits. (√)
- 4- We have our breakfast including milk, bread, fruits and honey. (√)
- 5- We must have balanced meals. (√)

# Model Exam (I)

## 1-Choose the correct answer:-

1-.....contain vitamin and mineral.

- Carrot and banana      - fish and meat      - Cake and Rice

2- We eat.....of turnip.

- Leaves      - stem      - Roots

3- We should eat.....food.

- Healthy      - unhealthy      -Fat only

4- you should eat.....meals a day.

- one      - two      - three

5- Fizzy drink is.....food.

- a healthy      - an un healthy      - proteins

## 2-Put (√) or (x) :

1- We eat the stem of potatoes. (√)

2- Green leaves make plant's food. (√)

3- Plants produce carbon dioxide gas in photo  
synthesis Process. (x)

4- Root system consists of stem. (x)

5- The stem carries the plant parts. (x)

### 3) Match:-

- |                        |                              |
|------------------------|------------------------------|
| - Carbohydrates        | - Balanced diet              |
| - Root                 | - give us energy             |
| - Plant's food         | - Banana                     |
| - You should eat       | - starch or sugar            |
| - We eat the fruits of | - absorb water from the soil |

### 3-Complete from the following words:-

(Egg - Ice cream - Roots - oxygen - lunch)

1- We eat fish, rice green salad and juice in **lunch** meal.

2- **Egg** is healthy but **Ice cream** is un healthy.

3- Plants make photo synthesis process and produce **oxygen** gas.

4- We eat **Roots** of carrot.
