21) To view the Picture toolbar from .... menu, select .... then ....

22) .... is a part of the webpage when you click on it, it will open a new webpage.

23) To make a hyperlink from .... menu, select ....

24) Table consists of group .... and ....

25) .... is the result of intersection between rows and columns.

26) To preview the HTML code of the webpage click .... tab

27) A Telephone book is analogous to a ...., it contains a list of ...., and each one consists of .... name, address, and telephone number.

B) Put (✓) or (✗) :

1) The website contains one page or more connected to each other. (   )

2) A Web page is what you see on the internet. It consists of text and graphics.

(   )

3) You must learn HTML to create a website.   (   )

4) To close MS Expression by clicking on close from file menu.   (   )

5) MS Expression program contains a group of controls to design the interface of

the website.   (   )

6) You can design the interface of the website at the page style area. (   )

7) You can create a website by using a ready template.   (   )

8) To format the text from format menu, choose Font.   (   )

9) To preview the webpage on the browser press on F5 key.   (   )

10) You can create a hyperlink to another part in the same page or to another page.

(   )

11) Before formatting the text, you must highlight it first.   (   )

12) You can format the picture by using picture toolbar.   (   )

13) You can insert picture inside the table cells   (   )

14) You can change the background of the table cells and the color of the border

from the cell properties.   (   )

15) To preview the HTML code of the web page open design tab.   (   )

16) The table should contain data about one subject only.   (   )

17) Database doesn't provide privacy.   (   )

18) Information may be in the form of characters and numbers which need organization to be used.   (   )

19) Databases are possible to be upgraded.   (   )

20) To establish a Database, we should first specify our purpose.   (   )

C) Choose the correct answer :

1) (MS Expression – HTML – PowerPoint) is a programming language used to create the websites.

2) (Webpage – Website – Hyperlink) is a collection of web pages.

3) Any web site may contains (sound – videos – links – all of them)

4) To close MS Expression from file menu, select (Close – Cancel – Exit)

5) To preview the website in the browser, press on (F10 – F11 – F12)

6) (Standard toolbar – menu bar – Toolbox) includes a group of icons instead of the menus.

7) (Menu bar – formatting toolbar – Toolbox) includes a group of icons to format the text.

8) (**B** – *I* – U) icon used to make the text bold.

9) (**B** – *I* – U) icon used to make the text italic.

10) (**B** – *I* – U) icon used to make the text underline.

11) ([≡] - [≡] - [≡]) icon used to make left alignment.

12) ([≡] - [≡] - [≡]) icon used to make right alignment.

13) ([≡] - [≡] - [≡]) icon used to make center alignment.

14) ([A▾] - [(Default Size) ▾] - [(Default Font) ▾]) icon used to change the color of the text.

15) ([A▾] - [(Default Size) ▾] - [(Default Font) ▾]) icon used to change the size of the text.

16) ([A▾] - [(Default Size) ▾] - [(Default Font) ▾]) icon used to change the font of the text.

17) To save the website from file menu, select(Save – Save all – Save as)

18) You can add a picture or hyperlink from (Format – Insert – Edit menu.

19) ([▲] - [▲] - [◀]) icon used to rotate the picture.

20) ([▲] - [▲] - [◀]) icon used to flip the picture.

21) ([◐] - [☀] - [✂]) icon used to increase the contrast of the picture.

22) ([◐] - [☀] - [✂]) icon used to increase the brightness of the picture.

23) ([◐] - [☀] - [✂]) icon used to crop the picture.

24) To Insert a new table from (Insert – Table – View) menu select "Insert Table".

25) To move one cell down using the keyboard click (↓ - ↑ - ← - →) button.

26) To move one cell left using the keyboard click (↓ - ↑ - ← - →) button.

Final - Second Term

D) Re – arrange the steps to :

1) **Open MS Expression:**

(   ) Open "MS Expression"

(   ) Select "All Programs"

(   ) From "Start" menu

(   ) Then "MS Expression Web"

2) **Create a blank website:**

(   ) From "File" menu

(   ) Select "New"

(   ) Choose "General"

(   ) Open "Website" tab

3) **To adjust the size of the margins:**

(   ) From advanced tab you can justify the (top, bottom, left, right) margins.

(   ) Ok

(   ) File > Properties

4) **Changing color of background :**

(   ) From formatting tab you can choose the color of the background and the color of the text.

(   ) Ok

(   ) File > Properties

5) **To set a picture as a background :**

(   ) Active "Background Picture" option.

(   ) From formatting tab

(   ) Click "Browse" button to select the background picture from your

    computer.

(   ) OK

(   ) File > Properties

6) **To change the direction of the webpage :**

(   ) From general tab at "Page Direction" drop down menu you can

    change the direction of the webpage from left to right or from right to left.

(   ) File > Properties

(   ) OK

7) **To change the name of the website**

(   ) At "Web Name" type the name of your website

(   ) Click "Ok"

(   ) From site menu select "Site Setting"

E) Give the scientific term :

1) It's the connection of a great number of nets all over the world.

(   )

2) It consists of text and graphics. These page can be created using HTML.

(   )

3) It's a collection of web pages connected to each other throw the hyperlink.

(   )

4) A program that used to create and design websites.   (   )

5) It's a toolbar that include a group of menus.   (   )

6) A part of MS Expression program and used to design the interface of the

program.   (   )

7) A part of MS Expression program and it includes the folders of the website.

(   )

8) A part of MS Expression program and it includes the properties and events of the

controls.   (   )

9) A part of MS Expression program and it displays the format style of the text.

(   )

10) A part of MS Expression program and it includes some controls to design the

interface of the website.   (   )

11) It is a part of the page (text, picture), when we click on it, it takes me to another

part in the same page or to another page.   (   )

12) It's a collection of information that is organized so that it can easily be accessed, managed and updated. (   )

13) It's one complete set of fields. (   )

14) It's a collection of records. (   )

15) The numbers and characters which need organization or proceeding to be used.

(   )

16) A set of connected tables and form which we can get information quickly and easily. (   )

17) Data which were organized or processed to be used. (   )

18) It contains a set of connected tables together in an organized way and makes it easy to get data and restore them. (   )

19) It is the main element in the table and is in the front of columns.

(   )

20) It is a row in the table and contains the data of the fields of the table.

(   )

21) Numbers and characters or icons which need processing and organization to be able to use them. . (   )

22) A set of data and information about a certain subject and they are in the form of rows and columns. (   )
F) Complete :
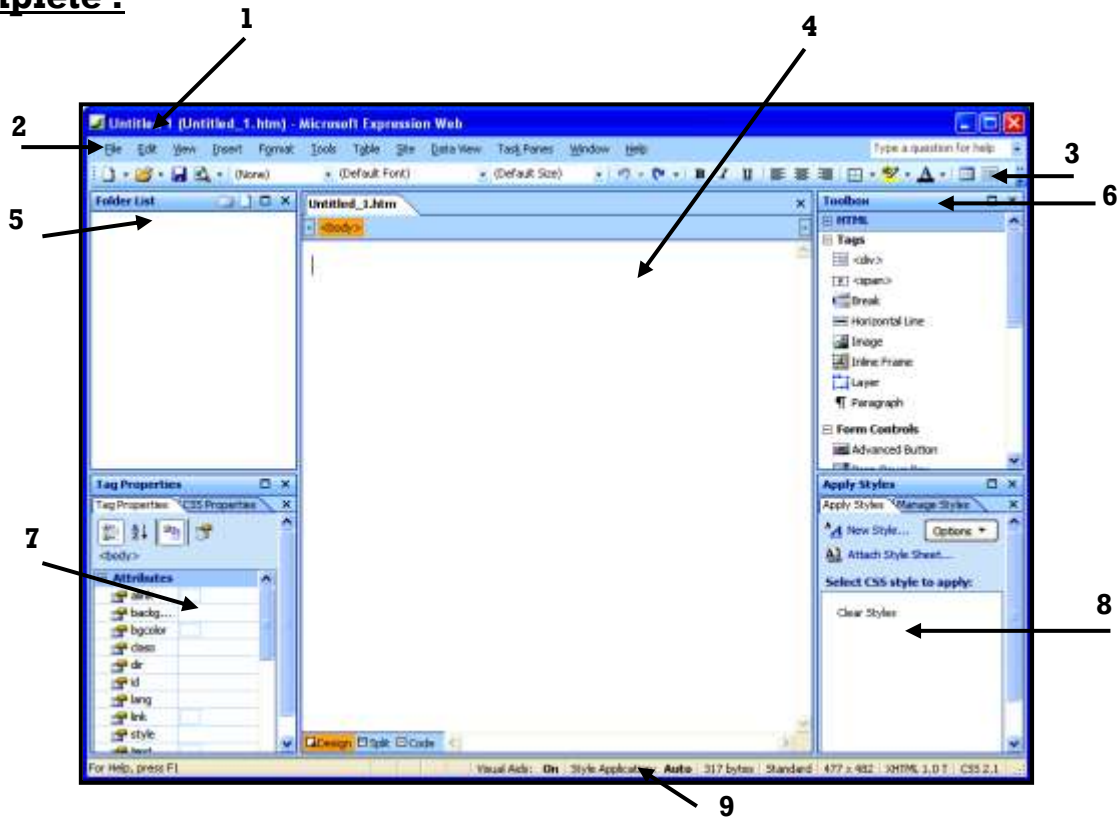

1) This window displays the interface of .... program.

2) Write the name of each part:

1. ....   2. ....

3. ....   4. ....

5. ....   6. ....

7. ....   8. ....

9. ....
G) Find the following data from the table:

Name of Student	Grade	Class
Ahmed	First	1/2
Mohamed	Second	2/6

1) Field Name

....

2) Field Content

....

3) Record Content

....

H) Match:

	A		B
1)	Delete Cells	a)	To add a table
2)	Background color	b)	To apply horizontal alignment
3)	Specify width	c)	To delete a cell
4)	Insert Table	d)	To set the width of cell and also the column containing it.
5)	Horizontal Alignment	e)	To change the background color of the cell

(1, ...)   (2, ...)   (3, ...)   (4, ...)   (5, ...)

I) Complete the following steps to change the cell color to yellow:

1) Select the cell which we need to apply a color to its background.

2) Right click on it and click............................

3) ....dialogue box will appear.

4) From ....open the menu and select the color.

5) Click ....to view the effect.

J) Complete the following :

To insert a hyperlink to go use to Google we do the following:

1) Select a text that will be used as hyperlink.

2) Open ....menu.

3) Select ....

4) Type the website address http://www.google.com in ....

5) Click Ok.

K) Complete the following sentence using:

(Open – Save – Recent Sites – Font – Toolbars)

1) We can reach the last designed websites from .... in "File" menu.

2) We can format the text in the page from "Format" menu or ....

3) To open a previously saved website, select .... from File menu.

4) To save changes to a webpage, select ....

5) ....window is opened from Format menu to format the typed

texts in the webpage.

L) Complete the following sentence using

(Video – Browser – Folder List – Website – Hyperlink)

1) ....is a group of web files and pages that are connected together

for providing services and information through internet.

2) The information in the webpage may be in the form of ....

3) The WebPages may contain ....which makes browsing the

internet pages and website easy.

4) From the used tools in building a website is the Design program and

........................program.

5) ....window in Expression Web contains the contents and

components of the website.

Final - Second Term

Answers

A) Fill in the space :

1) **Internet** is the connection of a great number of computers and nets all over the world.

2) **Website** is a collection of web pages.

3) **Webpage** is a page that created by HTML.

4) Any website may contains **sound**, **picture**, **text**, **video** and **hyperlinks**.

5) **MS Expression** is a program that used to create a websites.

6) **HTML** is a programming language that used to create a websites.

7) To open MS Expression program from "Start" menu, select "All Programs" then **MS Expression**.

8) To close MS Expression program from **File** menu, select **Exit**.

9) **Title bar** is a tool bar that contains the icon of the program, the name of the program and the control box of the window.

10) **Design Page** is a part of the program interface and used to design the interface of the website.

امتحان الشهادة الابتدائية
الفصل الدراسى الثانى – حاسب آلى
للعام الدراسى ١٤٣٥ / ١٤٣٦ هـ (٢٠١٤ / ٢٠١٥ م)

Time: $1\frac{1}{2}$ hours

📖 Answer all of the following questions :

(5 marks each question)

I - Choose the correct answer between brackets:

a) We can create a website with ....

b) A .... is a group of pages online containing information about a place.

c) Every field should have a .... clarifying its content.

d) MS ....is used for creating databases.

a) You can preview webpages in MS Expression using .... command.

(Word- MS-Expression - Visio)

(Website - Wore - File)

(size - cells - name)

(Access – Power Point – Paint)

(Preview Browser - Import - Export)

II - Complete to make a correct sentence with a word from the list :

(properties – Information – cells – fields – web)

a) In MS-Expression we can format .... of table.

b) MS-Expression is used for creating .... pages.

c) .... is the result of processing data.

d) To get the .... of a cell, select it then right click.

e) One record consists of a set of ....

III- Put a (✓) after the correct sentence and a (X) after the wrong one :

a) The web page should be saved after editing it.

b) You can't add images or sounds with MS Expression. ( )

c) A table with 3 columns and 5 rows contains 12 cells. ( )

d) There is no deference between paper databases and digital ones. ( )

e) You can navigate forward and backward between web pages. ( )

( )

IV- Choose from the column (B) what suits each phrase in column (A) then rewrite the complete sentences in your answer sheet :

Column (A)

a) To create a table in MS Expression

b) A cell in a table

c) One of database benefits

d) A field is

e) A record is

Column (B)

1- a place for storing one piece of data.

2- is storing and managing data.

3- a set of data about one item.

4- navigating pages.

5- select Table menu then click Insert Table.

6- is the cross of a row with a column.
